Anne,

Here is my email chain from my involvement with the Division's interest in unmanned aerial vehicles.

Sergeant Thorne is looking through his emails from any correspondence with the vendor that did the demonstration for us.

Please let me know if you have any questions.

Thanks,
Chris

Lori,

We have a start time set for 0900 hours on June 17th. I spoke with Captain Jackson and he does not think we will need a classroom, the gym should be fine.

Thank you for your help,
Chris

Mr. Monroe is confirmed for June 17th at 0900 at the academy. He told me he has new advancements that are better than the demonstration model he had before. He will bring all of his associated equipment and be prepared to answer any questions you may have. Please call with any questions.

If you would confirm with Mr. Monroe that he can be at the Academy on June 17th at 0900, then please let me know.

Thanks for the work on this project.

Would 0900 on June 17th at the Academy work for you?

Subject: RE: Aircraft

Thanks. It has to be 6/17 for me, but if that doesn't work out, one of the other days would work and others could be there.

Sir,

Eric Monroe and Sgt. Thorne made contact today and have settled on 6/17, 6/18, 6/24, or 6/25 as potential dates to come to the academy to demonstrate the radio controlled quad copter to the interested parties. Mr. Monroe said he would have all pricing ready and be prepared to answer any questions. He also said he has made significant upgrades in the ease of use for the vehicle as well. If we have it the Academy, we would could possibly use the gym in the event of in climate weather.

Please let us know which of the dates work best for you.

Thanks,
Chris

Sir,

Please see the below email from Sergeant John Thorne about the device for aerial video / photography. I didn't think the whole technology committee would need to attend a demonstration. Maybe we can arrange a date, through John, for a small delegation to be there and watch the device in use and be able to ask any questions to make a presentation for the committee.

Please let me know if you need anything on this product.

Thank You,

Lieutenant Christopher Kinn

I received a phone call from Eric Monroe, the gentleman who was going to demonstrate the radio controlled aircraft at the Warren OIS training. He is still interested in the program and has recently obtained new technology that we may be interested in using. Since there is no further plan for the OIS training, I was wondering if the technology committee may be open to a demonstration at the academy or elsewhere to determine if they are still interested in Mr. Monroe's product.

Having all of them there would also alleviate middle men when it comes to discussing training, price, contracts, etc. They would know the questions to ask, where I would not.

I still think we could use this for a multitude of things with the division. Plus seeing it in person is a definite "sell."

Lt.,

Here is the first of two emails I have with Mr. Eric Monroe from Shadow Studios. The second is forthcoming. Mr. Monroe responded via telephone call to each of these emails, not electronically. Consequently, there is no further email track of our correspondence.

Mr. Monroe,

Sorry for the delay in getting back with you. I have contacted Lt. Chris Kinn, who is a member of our technology review committee and enquired about a possible demonstration for the technology committee at our academy in Columbus. Since we may not be rescheduling the training day due to personnel changes, this may be the best way for me to link you up with people in the Patrol who could make decisions regarding purchase of the aircraft and training.

Additionally, having the committee there would make it easy for you to discuss price, contracts, training, and other issues that I would not be qualified to answer.

I am still very interested in obtaining an aircraft for the Patrol to use. I think this may be a better way to demonstrate the technology to those who control testing and purchasing. I will contact you when I receive word from Lt. Kinn.

Thank you for your time,

Sgt. John C. Thorne

Subject: Ohio State Patrol meeting address

Mr. Monroe,

I just wanted to send you the address for the Ohio State Patrol Academy:

740 E. 17th Ave.
Columbus, OH.

It is very easy to locate. Simply take I-71 south into Columbus and exit at 17th Ave., I believe it is exit #112. It is the same exit for Crew Stadium, the Ohio Historical Society, and the Ohio State Fairgrounds. Simply turn right at the exit and then right again at the next intersection. The Academy is on your left immediately after you turn.

Go in the main entrance and check in with the guard. I will try to be there early and wait for you there. Looking forward to seeing you there at 0900 on June 17th.

Thanks you,

Sgt. John C. Thorne
